§ 38.104 Reports required. Agencies shall submit to the Commission, upon request, (a) a statement of the steps taken to institute this program, (b) a copy of agency orders and directives issued in compliance with these regulators may be continued tions, and (c) such other reports as the Commission may require for adequate administration and evaluation of this program.

SUBPART B—UNITED STATES GOVERNMENT MOTOR VEHICLE OPERATORS' IDENTIFICATION CARD

§ 38.201 Identification Card. An employee who operates a Government-owned motor vehicle shall have an Identification Card issued in accordance with these regulations: Provided, That an agency's credentials issued to motor vehicle drivers prior to the effective date until the date of expiration thereof, but in no event beyond three years after the effective date of the regulations in this part.

§ 38.202 To whom issued. Identification Cards shall be issued to employees who qualify for and are assigned to Operator positions; employees who qualify as Incidental Operators; and other employees in accordance with the requirements for Incidental Operators in § 38.305: Provided, That Identification Cards may be issued without regard to the requirements in § 38.301:

(d) To temporary emergency appointees.

Identification Cards issued under the authority of this proviso must clearly indicate the time restriction imposed and will be issued only to employees who are in possession of a valid State license.

§ 38.203 Contents of Identification Card. (a) Identification Cards must specifically include the following:

 Eich type of motor vehicle authorized to be operated by the Identification Card holder.

(2) Any restrictions imposed upon the holder.

(b) The Commission may grant exceptions to the requirement for possession of an Identification Card while driving.

§ 38.205 Renewal of Identification Cards. Identification Cards shall be valid for not more than three years, and shall be renewable for additional periods of not more than three years.

SUBPART C—QUALIFICATIONS, REQUIREMENTS AND PROCEDURES

§ 38.301 Competitive Operator positions. Competitive Motor-Vehicle Operator positions may be filled by any of the methods normally authorized for filling competitive positions. The experience and training requirements for such positions shall include an experience requirement, a safe driving record, a Practical Road Test, and a valid State license. As modifications of the general requirements for each type of appointment the special requirements in § 38.302 apply to Operator positions.

§ 38.302 Appointment in absence of registers, and noncompetitive actions. The Commission may, upon agency request, waive the Practical Road Test requirement where qualified examiners or test facilities are not available in the area in: (a) Authorizing agencies to fill positions by appointment in absence of registers, (b) reinstatement and noncompetitive job appointments, and (c) filling positions by position change and transfer.

§ 36.303 Details. An employee may be detailed to a Competitive Operator position for 30 days or less provided that he possesses a valid State license. For details exceeding 30 days, the employee must meet the Commission's requirements applicable to Fosition Change and Transfer.

§ 38.304 Excepted Operator positions. In filling Excepted Operator positions

agencies shall use the standards in §§ 38.301 and 38.302 which apply to the filling of Competitive Operator positions by appointment procedures of like nature

§ 38.305 Incidental Operators. To qualify as an Incidental Operator in either the excepted or competitive service, an employee must meet the physical standards established by the Commission; he must qualify on a road test; and he must be in possession of a valid State license. Agency heads or their designated representatives may waive the road test, when, in their opinion, it is impractical to apply it, if the employee's competence as an operator has been established by his past driving record.

§ 38.306 Commission standards and procedures required. Agencies must adopt and utilize the Commission's minimum standards and testing procedures unless the Commission authorizes, upon agency request, the use of alternate standards and procedures which will meet the objectives of this program.

SUBPART D-ADVERSE ACTIONS

SUBPART E—AGENCY RESPONSIBILITY FOR PE-RIODIC TESTING OF PHYSICAL FITNESS AND ISSUANCE OF NECESSARY DIRECTIVES

§ 38.501 Periodic physical testing. At least once every three years each agency shall provide for testing the physical fitness of all employees who operate motor vehicles in accordance with standards and procedures established by the Commission,

§ 38.502 Agency orders and directives. Agencies are responsible for issuing such orders and directives as will comply with this part.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Grapefruit Reg. 105]

PART 955—GRAPEFRUIT GROWN IN ARIZONA; IN IMPERIAL COUNTY, CALIFORNIA, AND IN THAT PART OF RIVERSIDE COUNTY, CALIFORNIA, SITUATED SOUTH AND EAST OF THE SAN GORGONO PASS

lilitation of shipments

§ 955.366 Grapefruit Regulation 105-(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 55, as amended (7 CFR Part 955) regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California, and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S. C. 601 et seq.) and upon the basis of the recommendations of the Administrative Committee (established under the aforesaid amended marketing agreement and order) and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as heremafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the Federal Register (60 Stat. 237; 5 U.S. C. 1001 et eq.) because the time intervening between the date when information upon which this

section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than December 18. 1955. Shipments of grapefruit, grown as aforesaid, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since October 9, 1955, and will so continue until December 18, 1955; the recommendation and supporting information for continued regulation subsequent to December 17, 1955, were promptly submitted to the Department after an open meeting of the Administrative Committee on December 8; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time thereof, are identical with the aforesaid recommendation of the committee and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be

completed by the effective time thereof.
(b) Order. (1) During the period beginning at 12:01 a.m., P. s. t., December 18, 1955, and ending at 12:01 a.m., P. s. t., January 22, 1956, no handler shall ship:

(i) Any grapefruit of any variety grown in the State of Arizona, in Imperial County, California; or in that part of Riverside County, California, situated south and east of the San Gorgonio Fass unless such grapefruit are at least fairly well colored, and otherwise grade at least U. S. No. 2: or

(ii) From the State of California or the State of Arizona (a) to any point outside thereof in the United States, any grapefruit, grown as aforesaid, which are of a size smaller than 311/16 inches in diameter, or (b) to any point in Canada, any grapefruit, grown as aforesaid, which are of a size smaller than 3716 inches m diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit) except that a tolerance of 5 percent, by count, of grapefruit smaller than the foregoing minimum sizes shall be permitted which tolerance shall be applied in accordance with the provisions for the application of tolerance, specified in the revised United States Standards for Grapefruit (California and Arizona), §§ 51.925 to 51.955 of this title: Provided, That, in determining the percentage of grapefruit in any lot which are smaller than 311/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size 4716 inches in

diameter and smaller; and in determining the percentage of grapefruit in any lot which are smaller than $3\%_6$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $31\%_6$ inches in diameter and smaller.

(2) As used in this section, "handler," "variety," "grapefruit," and "ship" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2" and "fairly well colored" shall each have the same meaning as when used in the revised United States Standards for Grapefruit (California and Arizona) §§ 51.925 to 51.955 of this title.

In the Matter of Stanley Martin, and Stephen Balut, Individuals and as Copartners, Trading as Martin-Balut Fur Factory

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission-which charged respondent fur dealers with failing to comply with the labeling requirements of the Fur Products Labeling Act; and with dissemmating false advertising in newspapers, etc., which failed to disclose the names of the animals producing the fur and other information required by the act, misrepresented selling prices and savings possible to purchasers, and represented fur products falsely as being from the stock of a liquidating business-and an agreement between the parties providing for the entry of a consent order in accordance with the Commission's rules of practice.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist which, by the Commission's order of December 1, 1955, became the "Decision of the Commission"

The order to cease and desist is as follows:

It is ordered, That respondents Stanley Martin, and Stephen Balut, individuals and as copartners, trading as Martin-Balut Fur Factory and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce, as "commerce," "fur," and "fur products" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by

- 1. Falsely or deceptively labeling or otherwise identifying any such product as to the name or names of the animal or animals that produced the fur from which such product was manufactured:
- 2. Failing to affix labels to fur products showing:
- a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set

forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

- b. That the fur product contains or is composed of used fur when such is a fact;
- c. That the fur product contains or is composed of bleached, dyed, or artificially colored fur when such is a fact;
- d. That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur when such is a fact:
- e. The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;
- f. The name of the country of origin of any imported furs used in the fur product.
- 3. Setting forth, on labels attached to fur products, the name or names of any animal or animals other than the name or names provided for in paragraph A (2) (a) above.
- 4. Setting forth on labels attached to fur products:
- a. Non-required information mingled with required information;
- b. Required information in handwriting.
- B. Falsely or deceptively advertising fur products, through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:
 - 1. Fails to disclose:
- a. The name or names of the animal or animals producing the fur or furs contained in the fur products as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations:
- b. That the fur products contain or are composed of bleached, dyed, or otherwise artificially colored fur when such is a fact;
- 2. Represents directly or by implica-
- a. That the regular or usual price of any fur product is any amount which is in excess of the price at which the respondents have usually and customarily sold such products in the recent regular course of their business;
- b. That a sale price enables purchasers of fur products to effectuate any savings in excess of the difference between the said price and the price at which comparable products were sold during the time specified or, if no time is specified, in excess of the difference between said price and the current price at which comparable products are sold;
- c. The value of fur products when such claims or representations are not true in fact;
- d. That any such products are from the stock of a business in a state of liquidation contrary to fact.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 1, 1955.

¹So designated in Supplements to 1938 edition of the Code of Federal Regulations.

(b) Where it is desired to assign a part of an established farm unit, an application for the amendment and subdivision of such unit must be filed with the official in charge of the project, together with the showing required by § 230.32. If a survey shall be found necessary to determine the boundaries of the subdivision of any such farm unit, or the division of the irrigable area, a deposit equal to the estimated cost of such survey must be made with the agent cashier, Bureau of Reclamation, on the project by or on behalf of the parties concerned. Any excess over the actual cost will be returned to the depositor or depositors after completion of the survey, and they will also be required to make good any deficiency in their deposit.

§ 230.31 Limitations on and conditions of assignments. (a) The law expressly makes assignments "subject to the limitations, charges, terms, and conditions of the Reclamation Act," which, among other things, limits the right of entry to one farm unit, and forbids the holding of more than one farm unit prior to payment of all construction or building and betterment charges.

(b) Assignments must be an absolute sale, divesting the assignor of all interest in the premises assigned. Assignments may be effected by quitclaim or warranty deed or by any other form of conveyance in general use in the State in which the land is located, but a quitclaim or war-

ranty deed is preferred.

(c) Assignees must be more than 21 years of age and must not own, hold, or claim any other farm unit or entry under the reclamation law or one or more parcels of private land up to the limit of single ownership fixed for the project receiving water from the project system upon which all installments of construction or building or betterment charges have not been paid in full. If the assignee is a married woman, she must purchase the assignment with her own separate money, in which her husband

has no interest or claim (39 L. D. 504 and 43 L. D. 364). If the assignment involves a partial farm unit which an entryman does not elect to retain in accordance with § 230.30 (a), the assignee must also have an entry or an assignment covering the remainder of such unit.

§ 230.32 Showing required. Whenever assignments are presented to the land office in accordance with § 230.33, they must be accompanied by the following:

(a) A showing that the assignment and the assignee meet the requirements

of § 230.31.

(b) The original instrument of assignment, or where the instrument is recorded, a copy thereof certified by the officer who has custody of the record, or where the original instrument of assignment is presented to an officer having an official impression seal, a copy of the instrument certified by such officer if accompanied by satisfactory evidence of compliance with the documentary stamp tax provisions of the internal revenue law.

(c) A certificate by the official in charge of the project that water-right application therefor is not receivable or that the assignee has filed in the project office for acceptance a water-right application in due form for the land

embraced in the assignment.

(d) Where not all the predecessors in interest to an assignee have had their assignments approved by the land office, such assignee, in addition to the showings required by paragraphs (a), (b), and (c) of this section, must submit satisfactory evidence of title to the land consisting of either the recorded deed or deeds in the chain of title from the original entryman, an abstract of title, or a certificate of title issued by a qualified title company which is acceptable to the Department of the Interior.

§ 230.33 When showing is required. The showing required by § 230.32 is re-

quired whenever an assignment is presented to the appropriate land office for filling. All assignments should be presented for filling. They must be presented, however, when:

(a) The assignments involve, under \$230.30 (a), all or part of farm units which an entryman does not elect to retain, or under \$230.30 (b), parts of established farm units.

(b) The assignee desires to make proof of full compliance with the reclamation law with the view of receiving patent for

the land.

§ 230.34 Requirements for patent. Upon the approval of an assignment, the assignee will become entitled to a patent upon payment of the water-right charges and submittal of satisfactory proof of reclamation as would have been required of the original entryman, and after proof of compliance with the law.

CLARETICE A. DAVIS, Acting Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF LABOR Wage and Hour Division I 29 CFR Part 522 1

EMPLOYMENT OF LEARNERS IN KNITTED WEAR, GLOVE AND INDEPENDENT TILE-PHONE INDUSTRIES

NOTICE OF PROPOSED AMENDMENTS

Pursuant to section 14 of the Fair Labor Standards Act of 1938 (section 14, 52 Stat. 1068, as amended; 29 U.S. C. 214) the Administrator has heretofore issued supplemental industry learner regulations (20 F. R. 2304) providing for the employment of learners in the knitted wear industry (§§ 522.30 through 522.35), glove industry (§§ 522.60 through 522.65) and the independent telephone industry (§§ 522.70 through 522.74), at

wages lower than the minimum wage applicable under section 6 of the act.

Such regulations have been reexamined in the light of the Fair Labor Standards Amendments of 1955 (Public Law 381, 84th Congress, 1st Session), recent changes in wage levels, and administrative experience in their operation. Persons affected by them have been consulted. All relevant information available indicates that it is necessary to amend certain sections of the learner regulations applicable to these industries. Primarily, the amendments proposed herein would accomplish the following: (1) Increase the subminimum rates which may be authorized in special certificates isued by the Administrator for learners in the knitted wear, glove, and independent telephone industries; (2) extend presently authorized learner oc-

cupations in the imitted glove branch of the glove industry to include hand and machine stitching; (3) change the provision which presently authorizes subminimum rates for telephone exchanges of less than 2,000 stations, and for exchanges of 2,000 or more stations when unusual circumstances are shown to exist, to authorize such rates for exchanges with less than 3,000 stations, and, in exceptional cases, for exchanges with 3,000 or more stations when unusual circumstances are shown to exist: and (4) remove the limitation as to the number of operators that may be hired as learners in cases of abnormal labor turnover during one six-month period within the effective pariod of the cartificate (normally a period not longer than one year) by exchanges employing up to 8 operators, and by exchanges employing 9 to 18 operators. However, the limitation as to the number of learners that may be employed at any one time is retained.

It is proposed that these amendments shall be made effective March 1, 1956, the effective date of the Fair Labor Standards Amendments of 1955. However, applications under the amended regulations for learner certificates to become effective March 1, 1956, would be entertained by the Administrator prior to such date.

Accordingly, notice is hereby given pursuant to the Administrative Procedure Act (60 Stat. 237 5 U.S. C. 1001), that under the authority provided in section 14 of the Fair Labor Standards Act of 1938, as amended (section 14, 52 Stat. 1068; 29 U.S. C. 214) the Administrator of the Wage and Hour Division, United States Department of Labor, proposes to amend Part 522, as follows:

- 1. Paragraph (a) of § 522.35 is amended to read as follows:
- (a) The subminimum rate which may be authorized in special certificates issued in the knitted wear industry shall be not less than 85 cents per hour.
- 2. Section 522.63 is amended to read as follows:
- § 522.63 Learner occupations. Special certificates may be issued authorizing the employment of learners at subminimum wage rates in the glove industry in occupations of hand and machine stitching in the leather glove branch of the industry in the occupation of machine stitching in the woven or knit fabric and work glove branches of the industry and in the occupations of finger knitting and finger closing, and hand and machine stitching in the knitted glove branch of the industry.
- 3. Paragraph (a) of § 522.65 is amended to read as follows:
- (a) The subminimum rates which may be authorized in special certificates issued in the glove industry shall be not less than 80 cents an hour for the first 320 hours and not less than 90 cents an hour for the remaining 160 hours in the leather glove, woven or knit fabric glove and knitted glove branches of the industry, and not less than 77½ cents an hour for the first 320 hours and not less than 85 cents an hour for the remaining 160 hours in the work glove branch of this industry.
- 4. Paragraph (b) of § 522.71 is amended to read as follows:
- (b) Special certificates authorizing the employment at subminimum wage rates of learners in the occupation of a switchboard operator in the independent telephone industry may be issued to exchanges of less than 3,000 stations to the extent necessary to prevent curtailment of opportunities for employment, and, in exceptional cases, to exchanges of 3000 or more stations when the Administrator or his authorized representative finds unusual circumstances to exist which would curtail opportunities for employment.
- 5. Paragraph (b) of § 522.72 is amended to read as follows:

- (b) Special certificates issued to meet abnormal labor turnover may provide:
- (1) In the case of exchanges employing up to 8 operators, two learners may be employed at one time during one period not to exceed six months within the effective period of the certificate.
- (2) In the case of exchanges employing 9 to 18 operators, four learners may be employed at one time during one period not to exceed six months within the effective period of the certificate.
- 6. Section 522.74 is amended to read as follows:
- § 522.74 Subminimum rates. (a) For exchanges of less than 3000 stations the subminimum hourly rates to be provided in a special certificate for learners shall be not less than 80 cents an hour for the first 240 hours, and not less than 90 cents an hour for the remaining 240 hours of the learning period.
- (b) In exceptional cases where a certificate is issued to an exchange of 3000 stations or more the subminimum hourly rates for learners shall be not less than 85 cents for the first 240 hours, and not less than 95 cents for the remaining 240 hours of the learning period.
- (c) The earnings of learners employed on a piece rate basis shall be based on those piece rates if in excess of the authorized subminimum rates, in accordance with § 522.6 (j)

Prior to final adoption of the proposed amendments, consideration will be given to any data, views or arguments pertaining thereto which are submitted in writing to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., on or before December 31, 1955.

Signed at Washington, D. C., this 13th day of December 1955.

and Public Contracts Divisions.

DECEMBER 9, 1955.

Resolved that, pursuant to Part 108 of the general regulations of the Federal Home Loan Bank Board (24 CFR Part 108) and § 142.1 of the rules and regulations for the Federal Savings and Loan System (24 CFR 142.1) it is hereby proposed that, pursuant to section 5 (a) 48 Stat. 132, as amended (12 U. S. C. 1464 (a)) Part 145 of the rules and regulations for the Federal Savings and Loan System (24 CFR Part 145) be amended by amendments the substance of which is as follows: The rules and regulations for the Federal Savings and Loan System are hereby amended as follows:

a. By adding to Part 145 a new section to be numbered § 145.3–1 and to read as follows:

§ 145.3-1 Bonus on accounts—(a) Thrift meentive and investment incentive. The board of directors of a Federal association which has a charter and bylaws not inconsistent with the provisions of this section may, by resolution, obligate the association to pay a bonus in the form of the thrift incentive hereinafter set forth in this section or in the form of the investment incentive hereinafter set forth in this section, or both.

(b) Thrift incentive. An account eligible for the thrift incentive shall be an account with respect to which the holder has first made to the association a statement in writing of intent to qualify for the thrift incentive and upon which there have been made only regular, periodic payments, on a weekly, biweekly, semimonthly, or monthly basis, beginning on or not later than ninety days after the making of such statement, the amount of which shall be the amount of the first payment (which shall not be less than \$5.00) continuously thereafter and for a period of at least three years (or for a period of less than three years expiring on the date of the redemption of the account, if the account is sooner redeemed in whole by the association) without any delay of more than ninety days in the making of any payment and without any prepayment of more than six months, and without the withdrawal of any part of the amount of the payments made on such account. The thrift incentive shall be at the rate of onefourth of one percent per annum or at such lower rate per annum as shall have been most recently specified therefor by action of the association's board of directors in force at the time when such statement is made. The thrift incentive shall be calculated on the same basis and in the same manner as if it were a dividend at said rate on the account at the respective dividend dates of the association. The first thrift incentive on the account shall be credited to the account (or paid, if directed by the owner) as if it were, in total, a dividend with respect to the dividend period in which there falls the date of the completion of the first three years of eligibility of the account, or the date of the redemption of the account, if the account is sooner redeemed in whole by the accordation, and any thrift incentive thereafter earned on the account shall be credited to the account (or paid, if directed by the owner) as if it were a periodic dividend on the account.

The investment incentive shall be at the rate of one-fourth of one percent per annum or at such lower rate per annum as shall have been most recently specified therefor by action of the association's board of directors in force at the time when such statement is made. The investment incentive shall be calculated on the same basis and in the same manner as if it were a dividend at said rate on the account at the respective dividend dates of the association, and as if the lowest balance in said account during the period of three years next preceding had been the constant balance therein during said period. The first investment incentive on the account shall be credited to the account (or paid, if directed by the owner) as if it were, in total, a dividend with respect to the dividend period in which there falls the date of the completion of the first three years of the eligibility of the account, or the date of the redemption of the account, if the account is sconer redeemed in whole by the association, and any investment incentive thereafter earned on the account shall be credited to the account (or paid, if directed by the owner) as if it were a periodic dividend on the account.

(d) Conversion to thrift incentive. Any account which, at the effective date of a thrift incentive resolution as referred to in paragraph (a) of this section, is in good standing under any kenus plan other than those set forth in this section and which, on the date of the making of the request hereinafter mentioned in this subsection, would be in good standing under paragraph (b) of this section if this section and said resolution had been in force at the date of the making of the first payment on said account and if the statement referred to in paragraph (b) of this section had been in force on that date, may make a request in writing to the association to convert said account to the thrift incentive, and thereafter said account shall be treated as if this section and said resolution had been to in force and as

if such statement had been so made, provided, that in such case the reference in the last sentence of paragraph (b) of this section to the date of the completion of the first three years of eligibility of the account shall be construed as a reference to the date of the making of such request, if on the date of the making of such request the date of completion of the first three years of eligibility of the account shall be a date previous to the date of the making of such request.

(e) Provisions of this section exclusive. No account shall receive a thrift incentive or an investment incentive under the provisions of this section for or with respect to any period as to which it receives a bonus under any other provision of the regulations in this part or under any provision of the charter of the accoulation.

 Double payments prohibited, conversion from thrift incentive to investment incentive. No account shall receive an investment incentive under this section for or with respect to any period as to which it receives a thrift incentive under this section. An account may be converted from the thrift incentive to the investment incentive by the malang of request in writing to the association for such conversion, and in such case, subject to the provisions of the first sentence of this paragraph, any time during which such account met the requirements for the thrift incentive may be counted toward satisfaction of the requirements for the investment incentive.

b. By adding to § 144.6 a new paragraph (f) reading as follows:

(f) Bonus in the form of thrift incentive and investment meentive. If so provided by resolution of its board of directors, the accociation may be obligated to pay a bonus in the form of the thrift incentive cat forth in the rules and regulations made by the Federal Home Loan Bank Board, or in the form of the investment incentive set forth in the rules and regulations made by the Federal Home Loan Bank Board, or both.

§ 165.3-1 Contracts for payment of retirement or pension benefits. It shall be deemed an unsafe and unsound practice within the purview of section 407 of the National Housing Act, as amended, for any insured institution to enter into any contract or to provide any plan or arrangement for payment of retirement or pension benefits unless.

(a) The cost to the insured institution of such contract, plan or arrangement is actuarially determined and is funded through payments to a responsible and properly qualified trustee other than the institution or any officer, director, or employee thereof, or through premium payments on an annuity contract with a duly organized insurance company upon appropriate policies or contracts;

(b) The cost to the institution of such contract, plan or arrangement that accrues during each fiscal period shall be paid or provided for not later than the close of such fiscal period and charged to expense as are other operating costs: Provided, That any initial payment representing cost to the institution for periods of service prior to the adoption of the contract, plan or arrangement may be deferred and amortized by charge to expense during subsequent fiscal periods if the unamortized balance is fully offset by a corresponding specific reserve;

(d) Such contract, plan or arrangement does not attempt to foreclose, or to limit the free and full exercise of, the power, right, or authority of such insured institution's board of directors, or its successors, under the charter or bylaws or the laws under which the institution operates, to terminate the services of any officer or employee;

(e) Such contract, plan or arrangement reserves to such institution's board of directors, or its successors, the right to terminate the contract, plan or arrangement at any time and in such event terminates all obligation and liability of the insured institution thereunder;

(f) Such contract, plan or arrangement provides for its automatic termination upon declaration of default as defined in section 401 (d) of the National Housing Act, as amended, and in such event terminates all obligation and liability of the insured institution theraunder. Notwithstanding the provisions of this paragraph or paragraphs (d) and (e) of this section, such contract, plan or arrangement may provide that in the event of termination under such clauses the beneficiaries shall receive the benefits to which they may be entitled out of amounts funded at the date of such termination.

§ 165.3-2 Contracts for payment of employment compensation. It shall be deemed an unsafe and unsound practice within the purview of section 407 of the National Housing Act, as amended, for any insured institution to enter into any contract or agreement under which payment of any part of the compensation of an officer or employee of such institution is to be deferred unless

(a) The amount of such deferred compensation is funded through payments to a responsible and properly qualified trustee other than the insured institution or any officer, director, or em-

ployee thereof;

(b) The amount of such deferred compensation that has accrued during each fiscal period shall be paid or provided for not later than the close of such fiscal period and charged to expense as are other operating costs so that none of the costs of such deferred compensation shall be carried as a deferred charge or expense; and

(c) Such contract does not attempt to foreclose, or to limit the free and full exercise of, the power, right, or authority of such insured institution's board of directors, or its successors, under the charter or bylaws or the laws under which the institution operates, to terminate the services of any officer or employee.

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

ELECTROEXPORT AND ALBERT OBERMAYER

ORDER TEMPORARILY DENYING EXPORT PRIVILEGES

In the matter of Export Elektrotechnischer Erzeugnisse trading as Electroexport and Albert Obermayer, Rotenturmstrasse 25, Vienna 1, Austria, respondents.

The respondents, Export Elektrotechnischer Erzeugnisse, trading as Electro-export, and Albert Obermayer, hereinafter referred to as Electroexport, are the subject of an investigation concerning an alleged transshipment of parafiln wax to Gdynia, Poland, which wax was exported from the United States under general license to Austria upon Electroexport's representation that it was to be

used in Vienna, and the Director, Investigation Staff, Bureau of Foreign Commerce, has applied for an order temporarily denying to them all export privileges pending completion of the investigation and determination of any charges which may be brought against them. The application was made pursuant to § 382.11 (b) of the Export Control Regulations (15 CFR, Chapter III, Subchapter C) and, in accordance with the practice thereunder was referred to the Compliance Commissioner of the Bureau of Foreign Commerce who, after considering evidence in support of the application, has recommended that the application be granted to the extent hereinafter provided.

Now, upon receipt of the Compliance Commissioner's recommendation, after reviewing and considering the evidence submitted in support of the application and being of the opinion that there is reasonable ground to believe that the respondents have unlawfully transshipped to Gdyma, Poland, 350 cartons of paraffin wax exported from the United States under general license permitting such shipment to Austria, and that they have the intention to purchase large additional quantities of such wax which may be similarly transshipped in violation of the regulations under which it may be exported, and having concluded (a) that it is advisable that all United States exporters be informed by publication of this order of the provisions hereafter set forth and (b) that this order is reasonable and necessary to protect the public interest and to achieve effective enforcement of the Export Control Act, it is hereby ordered: (1) All outstanding validated export licenses held by or issued in the names of the respondents, or either of them, or in which they appear or participate as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation:

(2) The respondents, and each of them, their successors or assigns, directors, officers, partners, representatives, agents, and employees, are hereby demed all privileges of participating directly or indirectly in any manner, form or capacity in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing, participation in an exportation shall include and prohibit said respondents and such other persons' and firms' participation (a) as a party or as a representative of a party to any validated export license application; (b) in the obtaining or using of any validated or general export license or other export control document; (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported from the United States; and (d) in the financing, forwarding, transporting, or other servicing of exports from the United States;

(3) This demal of export privileges shall apply not only to the named respondents, but also to any person, firm, corporation, or business organization

with which they, or either of them, may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States or services connected therewith:

(4) This order shall be published in the Federal Register, shall be effective forthwith and shall remain in effect for a period of thirty days from the date hereof unless extended as in § 332.11 (b) provided and unless amended or modified hereafter in accordance with part (7) hereof:

(5) No person, firm, corporation, or other business organization within the United States or elsewhere, and whether or not engaged in trade relating to exports from the United States, shall, without prior disclosure of the fact to, and specific authorization from, the Eureau of Foreign Commerce, directly or indirectly in any manner, form, or capacity (a) apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control docu-ment relating to any exportation of commodities from the United States, or (b) order, receive, buy, use, dispose of, finance, transport, forward, or otherwise service or participate in an exportation from the United States, or in a reexportation of any commodity exported from the United States, with respect to which any of the persons or companies within the scope of paragraphs (2) and (3) hereinabove have any interest or participation of any kind or nature, direct or indirect:

(6) A certified copy of this order shall be served upon the named respondents by registered mail:

(7) In accordance with the provisions of § 382.11 (c) of the export control regulations, the respondents, or either of them, may move at any time prior to the entry of a final order of suspension to vacate or modify this temporary suspension order by filing an appropriate motion therefor, supported by evidence, with the Compliance Commissioner and may request oral hearing thereon, which, if requested, shall be held before the Compliance Commissioner at Washington, D. C. at the earliest possible date.

[Case No. 203]

Union Europeenne de Produits Chimiques and Jean Richards

ORDER REVOKING EXPORT LICENSES AND DENYING EXPORT PRIVILEGES

In the matter of export control violations charged against Union Europeanne de Produits Chimiques and Jean Richard, its director, 27, rue des Petites-Ecuries, Paris, France, Respondents.

Union Europeenne de Produits Chimiques and Jean Richard, its director, of East Germany. The Klassen Co. Paris, France, having been charged by been permanently denied all export permane

of Foreign Comerce of the Department of Commerce with having violated the Export Control Act of 1949, as amended, in that, as alleged, (1) they made and submitted falce statements and representations for the purpose of causing to be effected exportations from the United States, and (2) they diverted or caused to be diverted and transshipped to an unauthorized destination a commodity exported from the United States under export control documents limiting its shipment to France; the respondent, Richard, having been served with the charging letter and having failed to answer the same or demand an oral hearing; and the respondent, Union, having been served with the charging letter, having admitted that it had made false representations and certifications and had diverted one shipment from France to Belgium; in accordance with the practice, this case was referred to the Compliance Commissioner.

The Compliance Commissioner heard the charges, read Union's answer and received the evidence in support of the charges. He has made his report and recommendation, which, upon the facts as hereinafter found, appears to be fair and just and is therefore adopted.

Now, after considering the entire record consisting of the charges, the answer of the respondent Union, the evidence submitted in support of the charges and the report and recommendation of the Compliance Commissioner, I hereby make the following findings of fact:

1. At all times hereinafter mentioned, Union Europeenne de Produits Chimiques and Jean Richard, its director, were engaged in the export and import business in Paris, France.

2. That heretofore, on or about the 15th day of July 1954, the said respondents did execute, for the purpose of having the same submitted to the Bureau of Foreign Commerce in support of an application for an export license to export 150 tons of borax to France, a single transaction statement in which they certified that the said borax was for ultimate use in France in the manufacture of soap and cleaning compounds and, in the said statement, they did further agree to send a supplemental statement disclosing any change of facts with respect to the transaction.

3. The export license was granted and, pursuant thereto, 100 tons of borax were exported from the United States to the respondents. In connection with such exportation, the respondents received from the American exporter a bill of lading warning them that the said borax had been licensed for exportation to France as the ultimate destination and that diversion contrary to United States law was prohibited.

4. After the said borax arrived at Antwerp, Belgium, an intermediate port, the said borax, upon instructions of J. M. A. Klaasen & Co. of Rotterdam, to whom the respondents had sold the said borax, was transshipped to Rotterdam, the Netherlands, and from there to Rostock, East Germany. The Klaasen Co. had been permanently denied all export privileges (16 F. R. 7179, Nov. 11, 1953)

9470 NOTICES

5. In support of another application for a validated license to export 500 metric tons of borax, described by the applicant as sodium borate, the respondents again executed another single transaction statement in which they certified that the said "sodium borate" was not to be distributed or used in any country other than France, that it was to be used for the manufacture of soap and cleaning compounds and in the ceramics industry, and they further certified in the said statement that they would report any change of facts or intentions with respect to the transaction.

6. Respondents thereafter offered 150 tons of said "sodium borate" (borax) to the same vendee in Rotterdam, the Netherlands, to whom they had previously sold the 100 tons of borax to which reference is made in Findings 3 and 4.

7. With respect to both statements furnished by respondents for both transactions, the representations and certifications made as to intended use in France were continuing representations and respondents at no time notified their American vendor or the Bureau of Foreign Commerce of the change in facts or circumstances or that it had become their intention to sell and dispose of the commodities involved in the said transactions in a country other than France.

From which I have concluded that respondents did knowingly divert the 100 tons of borax in violation of § 381.6 of the export control regulations and that they made false representations, statements, and certifications and concealed material facts from the Bureau of Foreign Commerce for the purpose of effecting or causing to be effected exportations from the United States in violation of § 381.5 (b) (3) and (c) (3) (4) and (5) of the export control regulations.

In his report the Compliance Commissioner said:

In this case I do not find any affirmative proof that these respondents deliberately intended that the borax involved was to be transshipped to an Iron Curtain destination. Although they did refuse to give a representative of the U.S. Embassy a complete disclosure of all the facts, the respondent Union has been frank in its answer in that it has admitted the false representations and the diversion. Although knowledge on their part of intended Iron Curtain diversion has not been proven in this case, the fact is that an ultimate consequence of their false representations and the subsequent diversion to Belgium and Rotterdam was the diversion of 100 tons of borax to East Germany.

It may be that Union is under altered management (see its answer) and, in its answer, it says "** * had we suspected for a minute that the final destinations of the borax might have been behind the Iron Curtain, then of course, we would never have sold it to Belgium." I believe that the sanction in this case should be tempered to take into consideration this statement and to give the respondents an opportunity to demonstrate by their conduct that they are willing to abide and will abide by this country's export control regulations governing the ultimate disposition of commodities exported from this country. In this connection, cosideration should also be given to the fact that respondents have been temporarily denied validated export license privileges since August 17, 1955, and to the

further fact that Union has recognized, is aware of, and has admitted its wrongdoing.

Had respondents notified the Department of Commerce of their intention to resell the first lot of borax to the Klaasen firm, the diversion to East Germany could have been prevented. Now, having concluded that the action recommended by the Compliance Commissioner is fair, just and necessary to achieve effective enforcement of the law, it is hereby ordered: I, All outstanding validated export licenses in which Union Europeenne de Produits Chimiques and Jean Richard appear or participate as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

II. Henceforth, and for a period of one year from the date hereof, each of the said respondents be, and he or it hereby is suspended from and denied all privileges of participating, directly or indirectly in any manner or capacity in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada, whether such exportation has heretofore or hereafter been completed. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by any of the respondents, directly or indirectly in any manner or capacity, (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control documents, (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States. and (d) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

III. Such denial of export privileges shall extend not only to each of the respondents, but also to any person, firm, corporation, or business organization with which any of them may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith.

IV Upon condition that the respondents comply in all respects with this order, and with all other requirements of the Export Control Act of 1949, as amended, and all regulations promulgated thereunder, those respondents so complying, commencing six months following the date hereof, may engage in and enjoy all export privileges permitted by United States laws and regulations.

V. The privileges conditionally restored to any of the respondents under Part IV hereof may be revoked summarily and without notice upon a finding by the Director of the Office of Export Supply, or such other official as may at that time be exercising the duties now exercised by him, that such respondent has, at any time following the date hereof and prior to the expiration of one year

from the date hereof, knowingly failed to comply with any of the conditions or provisions upon which or whereby, by Part IV hereof, he or it has been permitted to engage in any phase of the export business otherwise denied to him under Part II hereof, without prejudice to any other action which may be taken by reason of any such new or additional violation. In the event that it be so determined that a respondent has breached the condition of Part IV hereof, the suspension and denial of such respondent's export privileges shall be deemed to commence on the day of such determination and shall continue for up to six months from the date of such determination.

VI. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, during any time when any respondent is prohibited under the terms hereof from engaging in any activity within the scope of Part II hereof, shall, without prior disclosure to, and specific authorization from the Bureau of Foreign Commerce, directly or indirectly in any manner or capacity (a) apply for. obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity, (b) order, receive, buy, use, dispose of, finance, transport or forward, any commodity on behalf of or in any association with such respondent, or (c) do any of the forcgoing acts with respect to any commodity or exportation in which such respondent may have an interest of any kind or nature, direct or indirect.

Dated: December 13, 1955.

Director,

BELLOWS FALLS HYDRO-ELECTRIC CORP. ET AL.

ORDER RELEASING JURISDICTION OVER CERTAIN ACCOUNTING MATTERS

December 12, 1955.

In the matter of Bellows Falls Hydro-Electric Corporation, Connecticut River Power Company New England Power Company, New England Electric System.

New England Electric System ("NEES") a registered holding company, and its subsidiary company, Bellows Falls Hydro-Electric Corporation ("Bellows"), have filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") Amendment No. 7 to the joint application-declaration of the above-entitled companies. By orders, dated July 13, 1948, and July 21, 1948, the Commission granted and permitted to become effective said joint application-declaration which relates, among other things, to the sale by Bellows of its utility

assets to New England Power Company, another subsidiary of NEES.

In said order of July 13, 1948, the Commission authorized NEES and Bellows to allocate consolidated Federal income taxes for the taxable year 1948, in the first instance, so that NEES would receive the full tax credit for the loss claimed to be sustained in connection with said sale and reserved jurisdiction with respect to "(a) the disposition of the proposed reserve account of NEES to be entitled Reserve Re Tax Allocation', (b) the disposition of the tax credit for the loss claimed to be sustained in connection with the sale by Bellows of its utility assets and to be included in the 1948 consolidated Federal income tax return of NEES and the participating companies, and (c) the disposition of the investment account of NEES in Bellows or any amount recorded therein"

Amendment No. 7 to said joint application-declaration states that final determination of the tax credit for the loss sustained in connection with said sale by Bellows has now been agreed upon with the United States Internal Revenue Service. NEES requests that this Commission (a) release jurisdiction with respect to the above-mentioned matters. (b) grant authority to allocate consolidated Federal income taxes for the taxable year 1948 in a manner other than permitted by Rule U-45 (b) (6) and (c) approve the accounting entries with respect to the disposition of NEES' investment in Bellows as set forth in Amendment No. 7. Bellows proposes that when said accounting entries have been effected, it will take the necessary steps to effect its dissolution.

NEES and Bellows request that the order of this Commission become effective upon issuance.

Notice of the filing of said Amendment No. 7 to said joint application-declaration having been duly given in the manner prescribed by Rule U-23 and no hearing having been ordered by or requested of the Commission, and the Commission finding that the applicable provisions of the Act and the rules thereunder are satisfied and that said joint applicationdeclaration, as further amended by said Amendment No. 7, should be granted and permitted to become effective forthwith and that the jurisdiction heretofore reserved with respect to such matters should be released:

It is ordered, Pursuant to the applicable provisions of the Act and the Rules and Regulations thereunder, that said joint application-declaration, as further amended by Amendment No. 7, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed by Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved with respect to the aforesaid accounting matters be, and the same hereby is, released.

By the Commission.

Western Kentucky Gas Co.

ORDER DECLARING THAT APPLICANT HAS CEASED TO BE A HOLDING COMPANY

DECEMBER 12, 1955.

On March 7, 1955, this Commission, by order, permitted a declaration to become effective under the Public Utility Holding Company Act of 1935 ("act") regarding a proposed merger into Western Kentucky Gas Company ("Western Kentucky"), a registered holding company and a public utility company, of Shelbyville Gas Company ("Shelbyville") a public utility subsidiary of Western Kentucky (Holding Company Act Release No. 12313). Thereafter Western Kentucky filed a Certificate of Notification pursuant to Rule U-24 notifying this Commission that the liquidation and dissolution of Shelbyville had been consummated.

Western Kentucky has now filed an application, pursuant to section 5 (d) of the act, seeking an order declaring that Western Kentucky is no longer a holding company.

Notice of the filing of said application having been duly given by this Commission, the Commission not having received a request for a hearing and not having ordered a hearing thereon, and it appearing to the Commission that the only remaining subsidiary of Western Kentucky, Kengas, Inc., is not a gas utility company within the meaning of the act since it distributes only liquefied patroleum gas in containers to its customers, and that, accordingly, Western Kentucky no longer, either directly or indirectly. owns, controls, or holds with power to vote any stock of any public utility or holding company and that it is appropriate to enter an order pursuant to section 5 (d) of the act declaring that Western Kentucky has ceased to be a holding company, the Commission observing no circumstance requiring the imposition of terms and conditions for the protection of investors in connection with the termination of the effectiveness of Western Kentucky's registration as a holding company.

It is ordered and declared, That Western Kentucky has ceased to be a holding company.

By the Commission.
